10,500 Sq. Ft. of Onsite Recycling

Goal: 100% Diversion Rate, Booth S35209 & Westwood Parking Lot

CONAIR TEC GRINDER FEED CONVEYOR WITH S+S METAL DETECTOR

The TEC Grinder Feed Conveyor, integrated with an S+S Metal Detector, ensures the removal of metallic contaminants from plastic materials during the grinding process.

CONAIR VIPER 1736 WITH SG2 CONTROLS

A high-performance granulator optimized for precision material processing in plastics manufacturing.

CONAIR KONGSKILDE AIRWASH 100 EVACUATION/FINES SEPARATION SYSTEM

An advanced evacuation and fines separation system, expertly designed to efficiently remove dust and fine particles from plastic materials through a powerful air wash process.

BOTTLING STAGE

Can't Miss Sessions

American and International PET Markets

Tuesday, May 7
11:00 – 11:50 AM

Learn about the key drivers of the U.S. rPET industry and the newest PET recycling technology from Erema for the U.S. and international plastic recycling industry.

Sustainability in Numbers: Accounting for PET's Lifecycle Impact

Wednesday, May 8
1:00 – 1:30 PM

Don't miss this in-depth analysis of PET packaging, focusing on sustainability and data-driven insights to showcase its low environmental footprint and recycling strengths.

Bottle Making, Filling and Capping of PET Bottles

Wednesday, May 8
11:00 – 11:50 AM

Discover how a closed plastic loop can be achieved and implemented, plus hear the advantages of independent mold makers.
